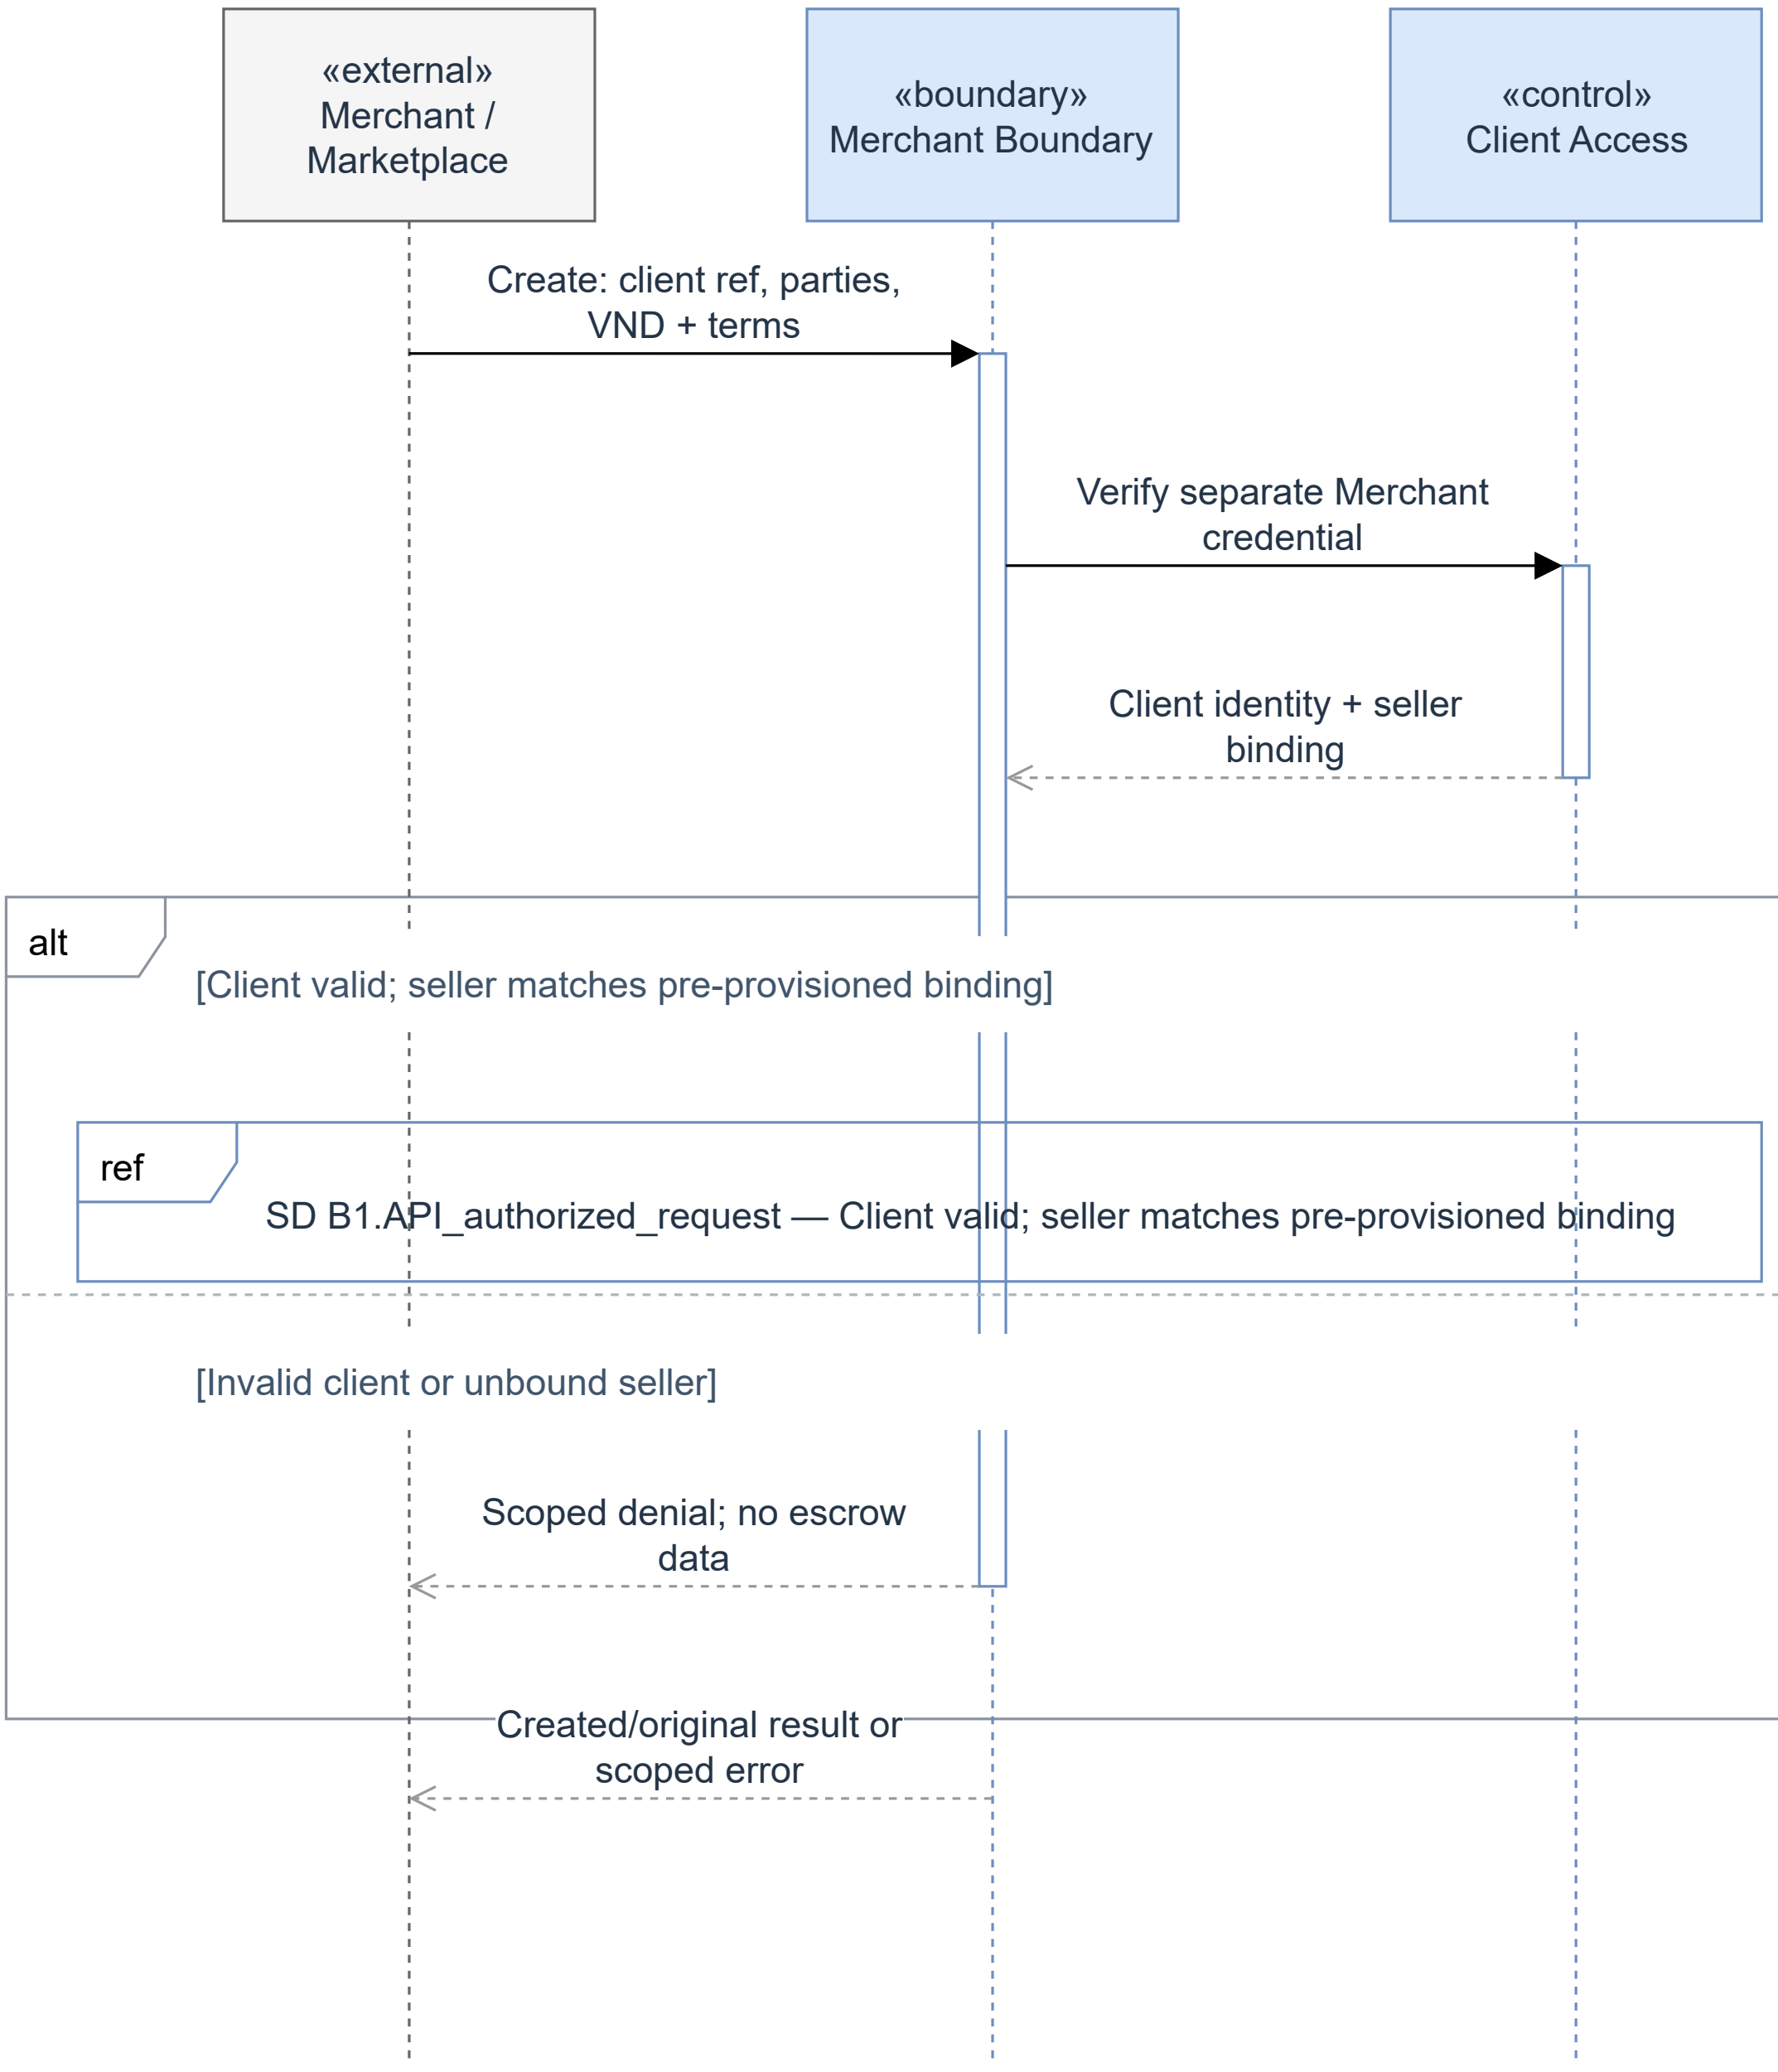
SD B1.API — Create Escrow — Merchant API Variant

EPS academic MVP | simulated VND | analysis-level interactions | time flows downward



Real seller performs S1; actual buyer performs B3/B4 with human MFA. Merchant cannot assert consent, funding success, delivery, refund or dispute.

Blue: EPS boundary/control. Gray: actor/entity/external mock. Yellow: business constraint.

Solid filled arrow = request; dashed open arrow = async event or gray return. Frames show guarded alternatives/options.
