3.1 EPS MVP - Use-case Module Map

22 unique use cases | 7 external actor roles | academic simulation

User / shared [U1-U8]
Account access (3.1a) + shared escrow actions (3.1b)
Actors: Guest, Buyer, Seller, Admin; Merchant for query only

Buyer [B1-B4]
Create, cancel, fund and confirm acceptance (3.1c)
Actors: Buyer; Merchant create; Bank/Gateway funding

Seller [S1-S2]
Accept terms and record delivery/service completion (3.1d)
Actors: Seller

Admin [A1-A5]
Disputes, policy, dashboard, audit and reconciliation (3.1e)
Actors: Admin; Bank/Gateway reconciliation

Payment integration [P1-P3]
Confirm funding, release and refund (3.1f)
Actors: Bank and Payment Gateway mocks

Navigation map only: the six focused UML views contain the normative use cases and associations.
Same UC code denotes the same goal; referenced payment use cases are not counted twice.
Merchant API variants B1.API / U4.API reuse the human-channel business contracts.
